

## Our Product Ranges.

### 1. Ductile Iron Casting Products.

- Manhole Covers & Frames.
- Gratings.
- Tree Grates.
- Architectural Castings.
- Access & Hatch Covers.
- Airport Castings.
- Bridge Scuppers
- Inlets & Catch Basin
- Detectable Waring Plates.
- Drainage Grates.
- Trench Casting
- Valves & Gates.
- OEM Manufacturing.

### 2. Construction Site Equipment.

- Garbage / Rubbish Chute for construction debris removal (Temporary Chutes)
- Winches.
- Hoists.

INDIA.

### 3. Waste Management Solutions.

- KLEANCHUTE Garbage / Waste Conveyance Chute System.
- KLEANCHUTE Linen Chute System.

## Our Product Ranges.

### 4. Poles & Accessories

- Stainless Steel Flagpole.
- Aluminum Flagpole.
- Fiberglass Flagpole.
- Big High Steel Flagpole.
- Lighting Poles
- Bollards
- Railings
- Flags & Banners.
- Wind Socks. (Hypalon Windsock & Safeguard Windsock)
- Fabrication Works.

Chemical Process Piping Pvt. Ltd.

INDIA.

### 5. Piping System.

- GRP / FRP Pipes & Fittings.
- GRE & Thermoplastic Lined FRP Pipes.

### 6. Chemical equipment.

- FRP Tank & Vessels
- FRP Scrubbers
- FRP Process Piping System
- FRP Chemical Reactors & Reaction Vessels
- Cooling Towers
- FRP Air Pollution Control System
- FDG Scrubbers
- FRP Blower & Stack
- GRP Petroleum Tanks

## Our Product Ranges.

### 7. Pultruded Products.

- FRP Pultruded Grating
- FRP Moulded Gratings
- FRP Pultruded Walkways, Staircase & Railings
- FRP Cable Trays
- FRP Ladders
- FRP Profile / Section
- FRP Fencing
- FRP VArm
- FRP Deck Panels

INDIA.

### 8. Exhaust & Extract Air Systems.

- Axial Flow Fan
- Centrifugal Fan
- High Pressure Blower
- Air Pollution Control
- Kitchen Exhaust System
- Ventilation System
- Air Washer
- Roof Extractor
- Air Curtain
- Scrubbers
- Dampers
- Fume Exhaust System

## Our Product Ranges.

TURKEY

TURKEY

## 9. Street Furniture.

- Benches. (Wooden / Steel)
- Picnic Table (Wooden / Steel / Thermoplastic)
- Trash Bin
- Planter
- Outdoor Fitness equipment
- Bollard
- Bike Rack.
- Rattan Furniture
- Umbrella
- Flower Beds
- Boundary Elements.
- Dust Bins
- Pergola
- Kids Playground equipment

## 10. Tanks & SILOS.

11. Classification	Product name		Application		Specifications
Types of Tank	<u>E-Panel Tank</u>		Potable water storage Domestic water storage Irrigation water storage Fire water storage Cooling water storage Rain water storage Industrial water storage		Water capacity : Maximum 3,600M³ Water temperature : Up to 40 deg. C.
	<u>EconoTank</u>				Water capacity : 0.25M³ - 2M³ Easy-assembly
	<u>Earthquake-Resistant Tank</u>				Horizontal Seismic Coefficient : 0.3G, 2/3G, 1.0G, 1.5G & 2.0G
	<u>Insulated Tank</u>				25mm foamed polyurethane insulation or 50mm foamed polyurethane insulation
	ThermaStore Tank		Hot water storage Hot spring water storage		Water temperature: Up to 80 deg. C.
Dehydrators	<u>CS type</u>	Single filter cloth	7-50kg DS/h		Simple construction, low water content comparable to a belt press
	<u>BPS type</u>	Belt press	35-300kg		Achieves low water content by combining suction

## Our Product Ranges.

			DS/h	dehydration
	<u>L type</u>	Belt press	10-180kg DS/h	Compact design with agglutination reaction vessel included.
	<u>SX type</u>	Screw Press	10-240kg DS/h	Special barrel construction helps to achieve hard to clog and low water content.
	<u>NS type</u>	Screw press	8-45kg DS/h	An innovative product that achieves effective processing by combining concentration and dehydration.
Wastewater Treatment Devices	<u>Rotating Biological Contactor</u>	Rotating disc contactor		An energy-efficient, bulking-free bio-treatment device that is easy to operate and manage. Features minimal excess sludge.
	<u>ESROTAE</u>	Rotating Disc Contactor		A bio-treatment device for small businesses featuring a compact design with a three-dimensional latticed contactor
	<u>AQUACUBE</u>	Carrier for Fluidized-bed		A bio-treatment device incorporating highly durable and functional AQUACUBE as carrier for preserving microorganisms
	<u>SKBiO</u>	Oil-degrading microbial formulation		Sekisui Aqua Systems' unique microbial formulation made of a pure culture of microorganisms with high oil degradation potential for wastewater treatment.

Wyuna Separation Technology - Oil Water Separator Specialist

## 11. Interceptors.

1. Refinery Waste stream
2. Tank Farm Waste Water.
3. Mining
4. Effluent Pre-Treatment
5. Cooling Tower Side Stream Filtration
6. Coolant / Cutting Oil Purification
7. Dairy Waste Recovery
8. Oil-Fast Recovery.

## Our Product Ranges.

### 1 PROFESSIONAL RUNNING TRACK SYSTEM

IAAF Athletics

SPUR Coating Layer  
PU Coating Layer  
SBR Coated Layer  
Protect Layer  
Concrete Substrate or Asphalt

Extra Marking  
EPDM Coating Layer  
PU Coated Layer  
Protect Layer  
Concrete Substrate or Asphalt

### 2 PROFESSIONAL SPORT COURTS SURFACING

ITF Approved

Top (Marking) Layer  
Base to the First Coat (SPUR) Layer  
Acrylic Coating, sand (or) coarse  
Acrylic Coating, sand (or) coarse  
Acrylic Coating, sand (or) coarse  
Concrete Substrate or Asphalt

Extra Marking Layer  
Top (Marking) Layer  
Gravel Surface (Marking) Layer  
PU Coating Layer (SPUR) Layer  
Protect Layer  
Concrete Substrate or Asphalt

### 3 PROFESSIONAL PVC SPORT FLOORING

### 4 COLORFUL EPDM PLAYGROUND SERIES

## 12. Sports Leisure and Industrial Surfaces.

A global supplier of sports leisure and industrial surfaces. Due to our own experience, the close contact to specialized suppliers and craftsman, we are aware of a lot of outstanding wishes and possible solutions that we discuss with each other in specific meetings and conversations. These kinds of ideas have produced lots of successful products and flooring systems

Company has an experienced installation team. We offer services of sport facilities construction and installation of artificial turf, PU athletic tracks, acrylic surfaces and wooden sport floors.

- ✓ TRACK - polyurethane running tracks
- ✓ GRASS - artificial turf for sports and leisure facilities
- ✓ GYM - fitness rubber surfaces, indoor sports surfaces for sport gyms
- ✓ MULTISPORT - multisport surfaces, acrylic tennis surfaces, portable courts surfaces
- ✓ ACOUSTICS - rubber products for vibroinsulation and acoustic insulation used in industry, building construction and sport
- ✓ FLOORING - industrial, decorative and garden surfaces
- ✓ GRANULATES - rubber granulates (SBR, EPDM, TPE) for sport surfaces
- ✓ CHEMICAL COMPONENTS - adhesives and components for sports surfaces, industrial purposes, foams for industry and furniture
